GET INVOLVED IN THE HBA DEMONSTRATION HOME

being featured at the 2019 CiTiRAMA® in Springdale in September.

The Demonstration Home is the Association's way to showcase members latest products and services, while providing opportunities to promote careers in construction.

PURPOSE OF THE 2019 DEMONSTRATION HOME

- Market member products to builders and consumers
- Enhance public awareness of the HBA and Its members
- Educate the public about the home building process
- Educate youth about careers in residential construction
- Provide skilled labor job training opportunities

has been selected as the official Builder of the Demonstration Home. We are seeking vendors who would like to showcase their products or materials for this year's home.

We are interested in obtaining commitments from HBA members who would like to participate via donations of products, labor, and services for the home.

Please contact Dan Dressman at HBA to obtain a copy of the home plans and for more information. HBA Demonstration Home contributing partners will be included in promotions leading up to and during the CiTiRAMA®, including signage, social and digital media, printed materials, onsite product demonstration opportunities, and more.
